Madam,

Personally I should have no objection to
you doing as you wish and commemo-
rating the generosity of my great grand-
father by naming two of your Dormitories
the names of Bristol and Hervey respec-
tively. I do not of course know precisely
for whom you write when you pen "we re-

chose to flout the reservation made by
my great-grandfather of the right of way

through your ground to his land on your
north boundary

Personally I have never been able to understand how any body of men could have brought them-selves to do so impious and so ungentlemanly an act as to filch from him (by skulking behind the law) his undoubted rights.

Yours faithfully
